Art 10.T

This week the kids for Spanish day, made a painting cutting pieces of paper into squares and made a skyline. The original artist name is Gaudi.

Computing

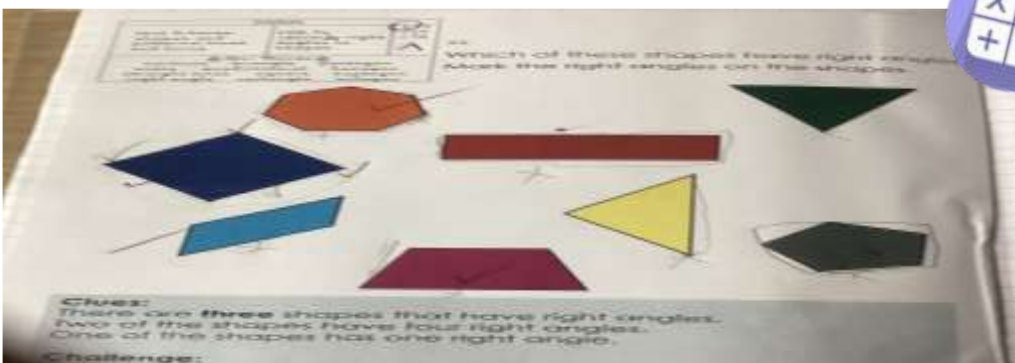

In Lea class , they used Tinkercad to re-size and re-colour 3 D shapes, and make holes in shapes. I found it really fun and easy ! Sabreen said.

Maths

In Seal class, they learned to identify Right Angles in 2 D Shapes. Majids work is amazing!

Science

In year 3/4 Eden class, they done a science investigation about sound! The children were exploring how the distances of sound is different from how far you are from the sound source, so if you're closer, the sound would be louder, but if you were more far from the source, it would be more quieter.

Science/gardening

In year 3/4, they were lucky to have a visitor come to our school to teach them all about bees, and also brought a bee hive with him! But, do not worry, because there was a glass case covering it so no bee escaped, then the children got to come up close the the hive and touch it!
